# YOUR BENEFITS

- € COST SAVINGS
- 🕒 TIME SAVINGS
- ⚠️ SAFETY
- 😊 COMFORT
- 👍 WORKING RESULTS

## HOPPER

- € Robust aluminium container with usable container volume of 0.8 m<sup>3</sup> / 1.2 m<sup>3</sup>
- € Noise and fuel reduction since the maximum suction is reached at just 2000 rpm / 1500 rpm
- 😊
- 👍 Optimum dust binding thanks to the intelligent circulating water system: The circulating water in the dirt tank flows back into the dirty water tank and is moved into the suction hose for dust binding
- €
- 🕒 Can be used for extended working periods even in dry conditions thanks to its large fresh water tank (220 l / 280 l)
- € Hand-held suction hose with fresh water injection
- ⚠️ Rear-view camera for safety and an overview of your surroundings when sweeping
- 😊

## BRUSH SYSTEM

- € Flexibly adaptable sweeper with individual brush control and parallel control; for example, to sweep out parking spaces
- 👍
- 😊 Protection of the brushes and improved sweeping results thanks to the left- and right-hand independent hydraulic brush relief
- 👍
- 👍 Right- or left-hand brush optionally available as a weed brush with hydraulic inclination adjustment
- 👍 Optimum dust binding thanks to the integrated fresh water nozzles on the brushes and on the suction mouth
- 👍 Maximum sweeping width even when the suction mouth is mostly covered and optimum collection of swept material thanks to the 74 cm-wide stainless steel suction mouth
- 👍 Simple collection of litter and leaves thanks to the electric coarse debris flap
- 😊 Single-handed operation: All operating elements are clearly arranged on the armrest
