<b>PTO shafts</b>	Powershift independent PTO shafts at the front, can be switched separately mechanically driven, 1000 rpm		
<b>HYDRAULICS</b>	35 l/min hydraulic pump, with the option to add an additional 80 l/min adjustable pump		

### YOUR TOP ADVANTAGES

- Silent working mode with low fuel consumption with only 1900 rpm
- Closer mounted mowing deck allows a great overall view and lower turning radius
- Less manual work needed due to singular deck lifting
- Floating position allows perfect copying of the ground and low ground pressure
- Multifunction of a Holder as usual
