

HOLDER

Kärcher Group

YOUR TERRITORY. OUR SPECIALITY.

MULTIFUNCTIONAL SYSTEM VEHICLES
FOR HOLIDAY DESTINATIONS

WHERE OTHERS GO ON HOLIDAY, WE ARE AT HOME

AT A GLANCE: YOUR ADVANTAGES WITH HOLDER SYSTEM VEHICLES

- Green area maintenance and path cleaning at the highest level
- Environmentally friendly technologies, e.g.: emission Tier-4-final for all diesel engines, petrol engine for X 45i, solutions for non-chemical weed control
- Only one vehicle along with a selection of attachments as replacement for various single-purpose vehicles saves acquisition and operating costs
- Compact, narrow and manoeuvrable machines for perfect work results and time savings on every territory
- Safe and comfortable full-time workplaces for drivers

SOLUTIONS FOR THE FUTURE. SINCE 1888.

Since 1888, Holder has stood for highly innovative engineering work and the construction of high-performance products for use in municipal and agricultural applications. As the pioneer of articulated steering, Holder took a central role in making implement carriers more manoeuvrable and multifunctionally applicable – characteristics that our customers are still benefiting from today.
